

# Read Languages

0

special

Grants the caster the ability to read almost any written language. It can either allow the caster to read any number of written works in a variety of languages (duration: 1 turn/level), allow the caster to read any one book or tome (duration: 3 hours/level), or allows the caster to read any one scroll (duration: permanent).

This spell does not work on magical texts.

The spell grants the ability to read the texts, but nothing else. There must be at least one living creature that can read the given language somewhere on the same plane.
